## Mobile air purification and disinfection system rental

2021-05-17 - rentiT | Zsolt Kiss - Comments (0) - Web - ENG

We expect that the onsite, in-person events will return slowly.

At our company we work hard on making these events safe and memorable, even beyond their prior level. Several new services from our "after COVID" portfolio will be introduced shortly, one of them is our brand new mobile air purification and disinfection system called Safety Pro.

Easy to setup, operates noiseless and effective moreover branding possibility is also available.

Please, read more about our solutions here:
